

# Release Note for VigorAP 800

Firmware Version:	1.1.6.2
Release Type:	Normal
Applied Models:	VigorAP 800

"With this high cost-efficiency VigorAP 800, computers and wireless devices which are compatible with 802.11n can connect to the existing Ethernet network via this VigorAP800. 300Mbps wireless transmission rates is ideal for bandwidth-heavy tasks. Easy install procedures allow any computer users to setup a network environment in very short time - within minutes, even inexperienced users."

## New Features

- None.

## Improvement

- Corrected: WPA2 KRACK vulnerability issue which affected Universal Repeater mode only. This issue affects all wireless clients so you should check your laptops, phones and all other wireless clients to see if they need updated software/firmware. Search for "WPA2 KRACK" with your vendor. See <https://www.draytek.com/en/news/news/2017/how-are-draytek-wireless-products-affected-by-the-wpa2-krack-vulnerability/>

## Known Issue

- None
