Applied Models:	VigorAP 910C

VigorAP 910C is a ceiling mount Access Point with PoE for offering power supply and support 300Mbps @2.4GHz, and 866Mbps @5GHz (11ac).

New Features

- None.

Improvement

- Improved: Add Device Object and integrate with WLAN access control & Schedule.
- Improved: Add “Allow management from WLAN” option and Access List on System Maintenance>>Management.
- Improved: Support Layer-2 member isolation on VigorAP with an option of Attribute: Isolate LAN / Member exception on Object Settings >> Device Object.
- Improved: Add a logout button on the dashboard.
- Improved: Add original password authentication to change the admin password.
- Improved: Remove the color change function for LED status on System Maintenance>>Management.

Known Issue

- None.

Notes

- To enhance the security among wireless clients, the SSIDs on the different bands (2.4GHz / 5GHz) will be isolated. That is, wireless clients with different bands can not communicate with each others even they are on the same subnet.
