

## Release Note for VigorAP 912C

Firmware Version:	1.3.2
Release Type:	Normal
Applied Models:	VigorAP 912C

VigorAP 912C is a ceiling-mount Wi-Fi for business networks. It has a capacity of up to 256 concurrent active users, ideal for a high-density environment such as a BYOD workplace. The low-profile appearance and PoE power supply provide the flexibility in deployment.

### New Features

This is an initial release for VigorAP 912C.

- Support 1 PoE LAN Port.
- Support up to 256 active users.
- Support 8 SSIDs.
- Support transmission rate up to 867 Mbps at 5GHz, 300 Mbps at 2.4GHz.

### Improvement

- None.

### Known Issue

- None.
