Release Note for VigorAP 912C

Firmware Version:	1.4.5
Release Type:	Normal
Applied Models:	VigorAP 912C

VigorAP 912C is a ceiling-mount Wi-Fi for business networks. It has a capacity of up to 256 concurrent active users, ideal for a high-density environment such as a BYOD workplace. The low-profile appearance and PoE power supply provide the flexibility in deployment.

New Features

- None.

Improvement

- Improved: Add new options to enable or disable the HTTP server, HTTPS server, and/or the function of Enforce HTTPS Access.
- Corrected: An issue of logging to VigorAP through the protocol of SSH.
- Corrected: An issue of enabling WMM Capable on Wireless LAN (2.4GHz)>>General Setup.
- Corrected: An issue of displaying the notification message for 802.11r on the Wireless LAN >> Roaming >> Enable 802.11r page.

Known Issue

- None.

Note

- The backup config file is encrypted for the sake of network security since firmware V1.4.4.
