

Release Note for VigorConnect

Software Version:	1.6.2
Release Type:	Normal
Applied System:	Windows 7, 8, 10 / Linux / Raspberry Pi / Synology NAS (x86 system)
Applied Models:	All VigorAPs (AP700, AP800, AP900 not included) VigorSwitch P2500/G2500, P2280/G2280, P2280x/G2280x, P2121/G2121, P1280/G1280, P1085/G1085, G1080, P1092

VigorConnect is a software which provides centralized AP management and switch management for TR-069 based devices. VigorConnect has device status, monitor status of devices, or perform scheduling tasks such as firmware upgrade, configuration backup/restore and parameter profile for mass deployment of the managed devices.

New Features

- Support Synology NAS (x86 system), Docker edition.

Improvement

- Corrected: An issue of 5GHz channel bandwidth choice on AP profile.

Known Issue

- An issue that viewing Flow with FireFox (HTTPS) would block illegal HTTPS certificate issued by Grafana.
